

# Customer Notification

B-CN-439-EN REV A

February 2, 2026

**SUBJECT: New Snubber Capacitors for TTS300/TGS230 Rev H Series Compressors**

## Purpose

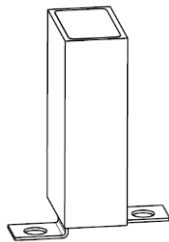

This bulletin is to inform customers that a new snubber capacitor supplier is being introduced for the TTS300 and TGS230 series compressors in March of 2026.

This new snubber capacitor was implemented for all other TT/TG series compressors in July of 2025, as described in Bulletin B-CN-396-EN. The new snubber capacitors offer incremental performance improvements and are slightly larger in size. A new snubber capacitor spare part kit will be introduced for the TTS300 and TGS230 to include the additional fasteners required for installation.

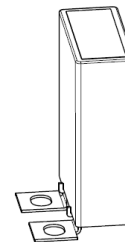

Figure 1 below illustrates the difference between the Snubber Capacitor versions.

## Snubber Capacitor Ordering Guidance

**When replacing snubber capacitors on TTS300/TGS230 Rev H compressors, order spare part kit 199K0078.** This new kit includes three snubber capacitors along with updated fasteners, required to install the new capacitors. The existing snubber capacitor kit for TTS300/TGS230 Rev H compressor models, 100417-2, will be obsoleted and replaced by 199K0078.

Spare part kit 199K0045 will continue to be available for Major Revision G and earlier TGS300/TGS230 compressors.

Refer to the table below to ensure the correct Snubber Capacitor Spare Part Kit is selected for your specific compressor model.

Major Revision	Compressor Model	Part Number	Description
-N, -P, -C, -D, -E, -F, -G	TTS300/TGS230 Series	199K0045	SNUBBER CAPACITOR, 0.47 $\mu$ F, 1000VDC
-H	TTS300/TGS230 Series	199K0078	SNUBBER CAPACITOR, 0.56 $\mu$ F, 1000VDC
