

Customer Notification

B-CN-408-EN REV A

November 13, 2025

SUBJECT: TTH/TGH Casting Finish

Purpose

The purpose of this bulletin is to inform our customers that we have introduced a new supplier for our TTH/TGH series IGV Housing, Main Housing, Housing Extension, and Second Stage Housing for the Tallahassee factory (TLH).

This expansion delivers increased supply chain resiliency for Danfoss Turbocor and our customers. The added supplier has supplied castings for the TTS/TGS series compressors since April of 2022 (see Bulletin B-CN-278-EN for additional details) and will now support the TTH/TGH products.

Components from this new source have been introduced into production starting in November of 2025. It should be noted that there will be a slight visual difference between the housings from each supplier. Refer to Figure 1 below for a comparison.
